

Top Quality Portable Bars – bestportablebars.com

VERSATI Portable Bar Manual

IMPORTANT: Warnings and Cautions

Metal edges and corners could be sharp. One should use protection gloves while manipulating the bar or any metal parts. Also, avoid wearing new clothes or jewelry while assembling/disassembling/moving the bar.

Some parts can be too heavy or too large to be lifted and carried by one person alone. If unsure about your ability to lift and manipulate a part by yourself, ask for others' help. Avoid lifting and manipulating the bar parts in proximity to children or pets.

Place the bar in a safe place to avoid accidents.

Although the bar and lighting are made to resist to unexpected spills and rain, keep the bar top, controller, and electric connections safe from direct spill, water, and rain.

Important Warranty Information

BEST portable bars come with a limited warranty of one year after the date of purchase against manufacturing defects. Damages resulting from shipping, handling, misuse, bad maintenance, negligence, or any other factor that cannot be controlled by Avec Flair Bar Solutions Inc. are not covered by this warranty.

Maintenance Information

Although type 304 stainless steel is very resistant to rust, it is recommended to always keep your bar as clean and dry as possible, both when used and in storage. Avoid long exposure to citrus juice, salt water, and other rust activators.

For cleaning purposes, we recommend using Windex, Extra Virgin Olive Oil or Baby Oil. Always use a microfiber cloth to clean a stainless steel surface.

To eliminate scratches, try brushing the scratched area with steel wool. Brush gently in the direction of the grain.

How to Change Panels on the VERSATI
